DANCON'S MIDSUMMER PARTY

Onsdag 23 JUNI afholdtes Skt. Hansfest ved DANCON. I VIKING CAMP blev der efter båltalen serveret spidstegt lam og okse. Køkkenet havde arrangeret sig med VMEK der viste sig at være en mester i spidstegningskunsten.

On Midsummer Eve a party was held in VIKING CAMP. The menu consisted of grilled lamb and beef. In the middle of the picture you see the armourer who turned out to be an excellent cook.

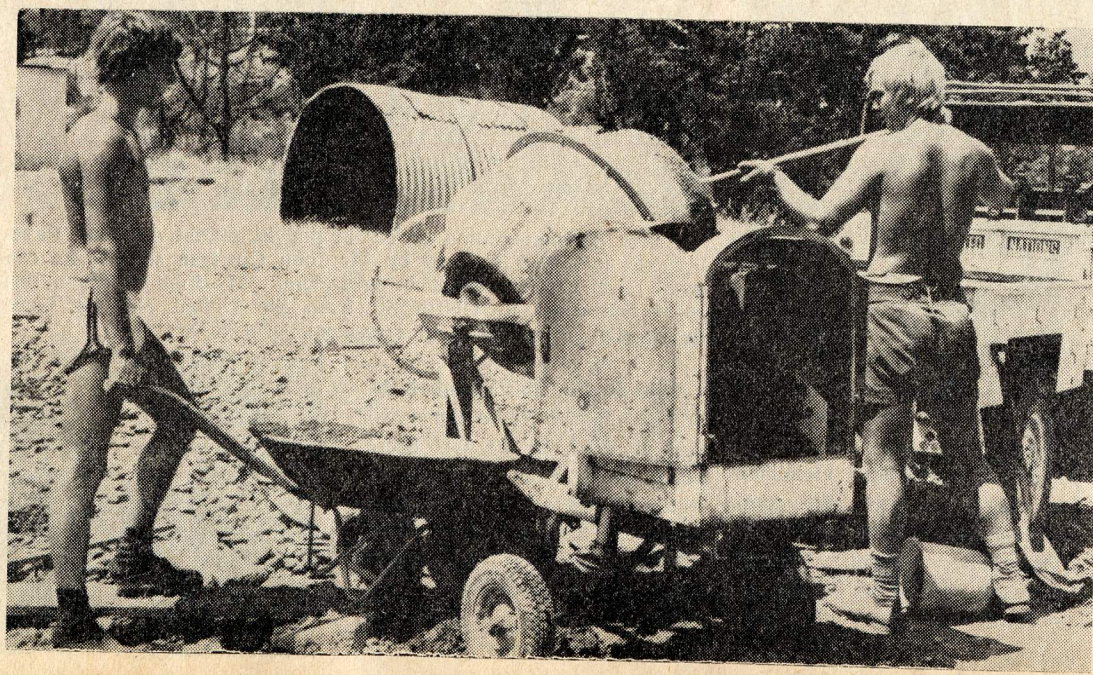

WORKSHOPS TO THE RESCUE

I 3 døgn var VIKING CAMP uden vand. Med "REME's" hjælp lykkedes det at trække det 25 m lange pumperør op. Her konstaterede man store tæring der gjorde at trykket i anlægget forsvandt. Ved dygtig indsats fra såvel PI-DEL som REME lykkedes det at bringe vand til lejren igen.

VIKING CAMP had no water for 3 days, but with the kind help of "REME", we are now able to have a shower again.

The last piece of pipe goes into place.

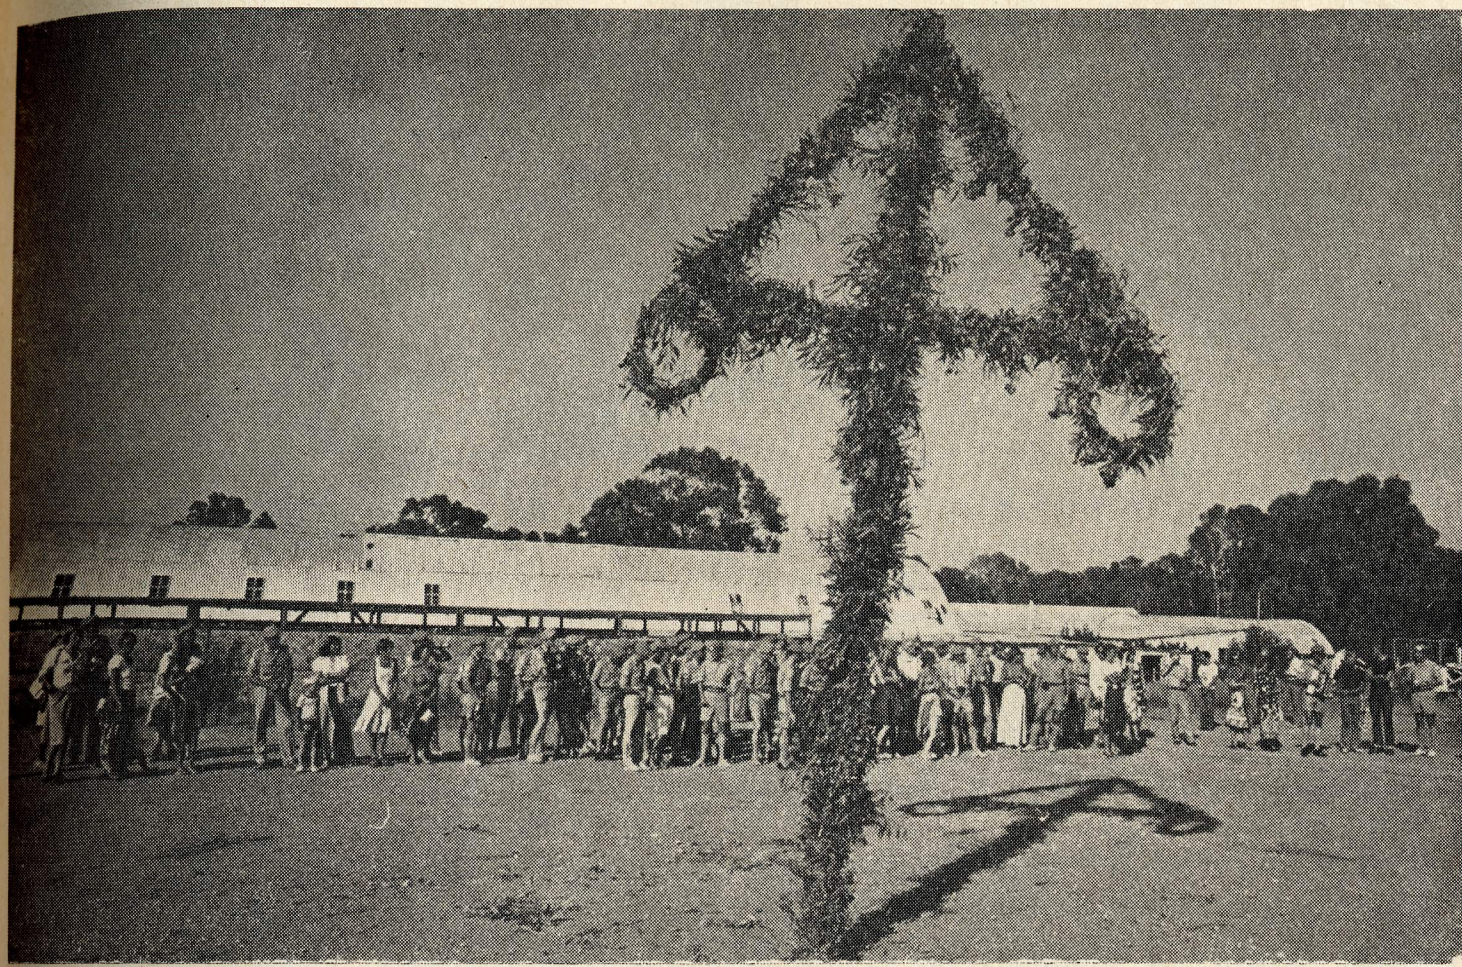

DANISH ENGINEERS BUILD NEW HELICOPTER PAD

Et stort arbejde er gået forud for ved opførelsen af en ny helikopter-landingsplads i VIKING CAMP. Den nye heliplads er af en sådan beskaffenhed at der ikke dannes sig store støvskyer når helikopteren lander og letter. Det store støbearbejde blev bl.a. udført af KS E.F. Hansen og KS A.H. Wollsen som ses på billedet.

In this picture you see two of our hard working soldiers building a new helipad.

SUCH A MIDSUMMER EVENING

At Carl Gustav Camp, the maypole has been raised and the dancing will start soon.

For many of us at SWEDCON midsummer evening in the dark was a new experience. The Midsummer sets, is one of the most popular annual holidays in Sweden and Scandinavia. This holiday is traditionally celebrated

in Sweden with all the usual festivities — parties, dancing and games in the light of the midnight sun. Although there was no midsummer sun at Carl Gustav Camp all the usual celebrations took place, including dancing round the maypole to music

from an accordian. In Sweden the maypole is normally made of firch leaves and seven different types of flowers.

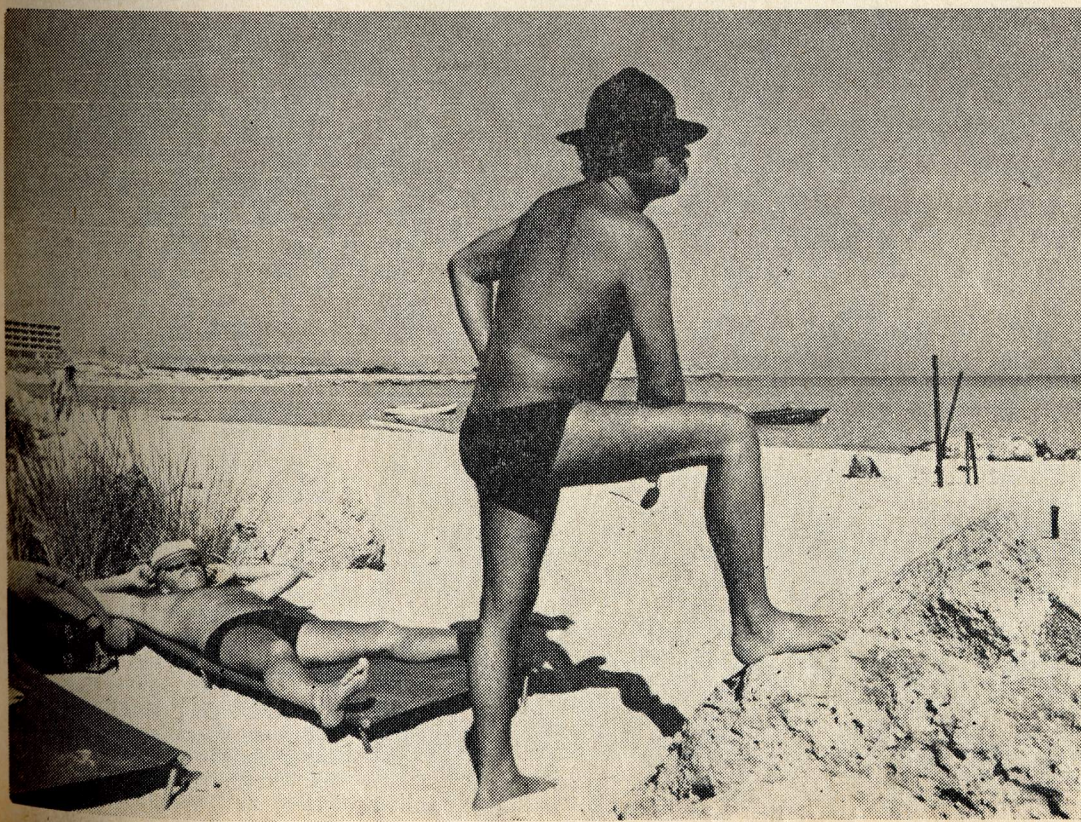

The party ended with a smorgasbord for everyone.

HE IS SWEDCON'S VETERAN

After serving with the UN on seven different tours, six with UNFICYP and one in the Middle East, Bjorn Anderson can call himself a "veteran". He says though that this will be his last tour, because when he finishes in October, he plans either to start studying or to get a job in his home town of Stockholm. Most people who knew him believe that in spite of this he will be back again.

Bjorn has served with the UN as a rifleman, waiter and now as a cook.

He is often referred to jocularly as the 2ic of Nissi Beach OP as he spends most of his free time there.

FINCON URHEILEE

Finconin lentopalloilijoilla oli ankea juhannus. Piti pelata UNFICYPin kisoissa niin aattona kuin juhannuspäivänä. Juhlomisesta ei ollut puhettakaan. Aivan käsikirjoituksen mukaan homma ei keskittymisestä huolimatta kuitenkaan sujunut, sillä tarkoituksena oli, että ykkösjoukkue ottaa kullan ja kakkonen hopean.

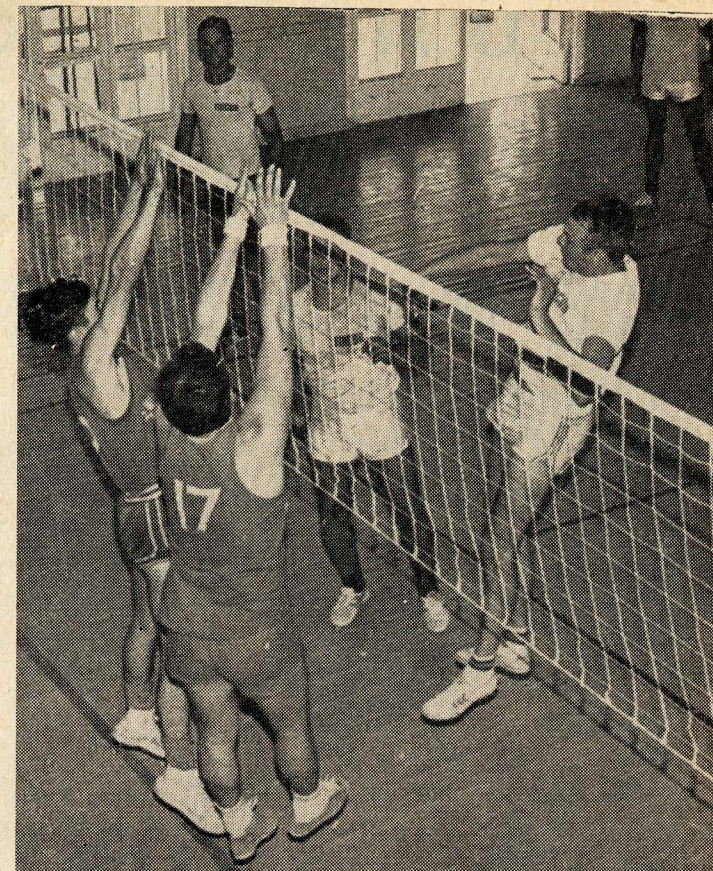

Tuomareiden suosiollisella avustuksella yllättävän hyvä kanadalaisten joukkue kuitenkin seisovan ykköseemme, joten kakkosen oli pakko voittaa finaali, ettei kulta joutuisi vieraisiin käsiin. Finaali oli erinomaisen tiukka ja jännittävä. Ensimmäinen erä voitettiin 20—18 ja toinen 15—13. Tuloksena oli siis kultaa ja pronssia. Oman värinsä kisoihin antoivat englantilaistuomarit, jotka kuulemme ovat joskus viheltäneet maahockeyta. Lentopallossa säännöt tosin ovat hieman erilaiset, mutta se ei terhakkaa tuomariparia häirinnyt.

Pataljoonan tenniskisatkin saatiin päätökseen. Alla olevan kuvan ilmeet kertovat tuloksen. UNFICYPin tenniskisoissa on ensimmäinen kierros takana. Siinä FINCON voitti niukasti englantilaiset Royal Green Jacketit.

Pataljoonan viestimestaruuskisoissa juostiin miehekkäitä 600 ja 1200 metrin matkoja vuoron perään. Mukana oli 70 juoksijaa, eli siis seitsemän kymmenmiehistä joukkuetta sekä lisäksi yleisöä ihan kotitarpeiksi.

Hymystä jo huomaa, että maj Seppo Ojanperä (vas) on kukistanut ylik Manu Longan finaalisissa.

Kisojen paras pelaaja, alik Pertti Lankinen, on juuri sivuuttanut kanadalaisten torjunnan. Muut ykkösjoukkueemme miehet seuraavat hartaina polvet lukossa.
