The Swedish Chief of Army visits Swedcon

General Nils Sköld talks to some of the soldiers out on the OP-line.

The Commander-in-Chief of the Swedish Army, General Nils Sköld, recently visited the Swedish Battalion in Famagusta. Although the General served as a United Nations officer with one of the Swedish Battalions in Gaza in the late fifties, this was his first visit to a UN battalion since he was appointed Commander-in-Chief last year.

After a tour of the OPs, the General said he was very impressed by the way in which the Swedish soldiers were carrying out their duties.

The General also paid a visit to HQ UNFICYP in Nicosia before leaving Cyprus to visit the Swedish UN battalion in the Sinai desert. On his departure, General Sköld expressed satisfaction at the usefulness of his visit because, being responsible for the organisation and training of the Swedish UN troops, it had enabled him to gain a closer insight into the problems of the soldiers serving in UNFICYP.

Number three in the swimming-competition

Swedcon tied for third place with Cancon when the UNFICYP Swimming Competition was held at the pool at the Headquarters in Nicosia recently. Winner of the thrilling competition was UNFICYP Support Regiment followed by Fincon. The Force Commander, General Quinn is pictured awarding and offering his congratulations to the Swedson medley team.

BRITCON Medal Parade

On Tuesday 6th September the second British Contingent Medal Parade of 1977 took place at Nicosia Airport. On the parade a representative party of all the units serving in the Contingent received United Nations Medals from the Force Commander Major General J J Quinn.

On this occasion A Squadron The 15th/19th The Kings Royal Hussars, four guards of 1st Battalion The Royal Irish Rangers, and detachments from the minor units of the Support Regiment under the command of Lieutenant Colonel W H Clements took part in the parade.

The parade, which began with a fly-past of helicopters from both the Army Air Corps flight and the Flight of 84 Squadron was watched by a large crowd of distinguished guests. The fly-past also marked the last occasion on which Sioux helicopters will take part in the British Contingent parades.

The Medal Parade also marked the end of A Squadron's six month tour with the Force, and it was appropriate that almost their last official task was to charge past the Force Commander to the tune of The Post Horn Gallop.

A Squadron are being replaced by C Squadron of the 3rd Royal Tank Regiment.

Last week the longest serving officer in the Contingent, Colonel H Forbes, handed over the appointment of Chief Medical Officer to Colonel D Worsley. They were pictured together shortly after Colonel Worsley arrived in the Force.

OP MARCH

Beim Observermarsch am 05.09.77 durch die Pufferzone wurde so mancher Tropfen Schweiß vergossen.

Obzwar die Observer-Crew auf ihre gewohnten "fahrbaren Untersätze" verzichten mußte, war die gute Laune ungebrochen.

The OP march took place on 5th September in Sector Five, on a route through the Buffer zone that caused everyone to sweat very much. The recce platoon pictured above unusually without vehicles, were nevertheless still cheerful.

POOR PIONEERS

Die Angehörigen des Pionierzuges können mit Recht von sich behaupten, ständig im Einsatz zu stehen. Unser Bild zeigt Pioniere bei Ausbesserungsarbeiten am OP A 23.

The men of the Pioneer platoon can rightly say they are always on duty. They were pictured recently while they were improving OP A 23.

FORCE SWIMMING CARNIVAL

On Thursday 8th September, the 1977 UNFICYP Swimming Carnival was held before a large and enthusiastic crowd. Not only were the heats in all events closely contested, but the finals produced magnificent efforts from all competitors with many split-second finishes.

Possibly the most exciting events were the 200 yard Freestyle and Relay events. In the 200 yards Freestyle PARKKONEN of Fincon, came home in fine style to just beat KNIGHT of Support Regiment, with CHANCE of Cancon a stroke behind in third place.

In the 4 x 50 yards Freestyle Relay event, the crowd was very vocal in its support of the six teams competing. UNFICYP Support Regiment displayed tenacious endurance to hold off Swedcon, who come in second with Fincon gaining by a terrific burst coming home third.

The 4 x 50 yards Medley Relay event although brilliantly contested saw an upset in the final result with two teams being disqualified for using unorthodox strokes. There was no doubt that UNFICYP Support Regiment of Harding, Skill, Platts and Eustace were the winners with Auscon being placed second Lacher, Sveida, Litchenbecker and Eckersberger) and Swedcon (Akerberger, Duwta, Jansson and Jantunen) third.

In the sprint 50 yards events of Freestyle, Breaststroke, Butterfly and Backstroke, the heats and finals saw some very good results. Possibly the most sensational result was given by Tardif of Cancon who in two consecutive events took the gold medals for the Butterfly and Backstroke events.

Following the conclusion of the events, The Force Commander, Major General J J Quinn presented gold, silver and bronze medals to the winners and runners-up, after which the Police Adviser, Assistant Commissioner J Hamilton, presented the aggregate trophy to the top point scorers — UNFICYP Support Regiment who amassed a total of 14 points.
