SWEDCON'S FIRST GIRLS

Women's legs in SWEDCON. That was impossible until this year. Now, however, the Swedish Post Office has at least made it possible for women in this occupational group to work for SWEDCON.

WOMEN in SWEDCON. That's something quite new. Although it is true that we've had dental nurses serve with Swedish Contingents for short periods of time in the past, women established in the organisation is unique.

In the present Swedish Contingent, number 69C, there will be two women, both working as postal clerks.

You can't deny that this change is a popular one in the Swedish Contingent.

Since arriving in early May, during the rotation, Miss Louise Ekblom has been on duty with the SWEDCON's Post Office in Camp Victoria. She will be replaced on 31st July by Miss Anne-Marie Johansson who will stay until November.

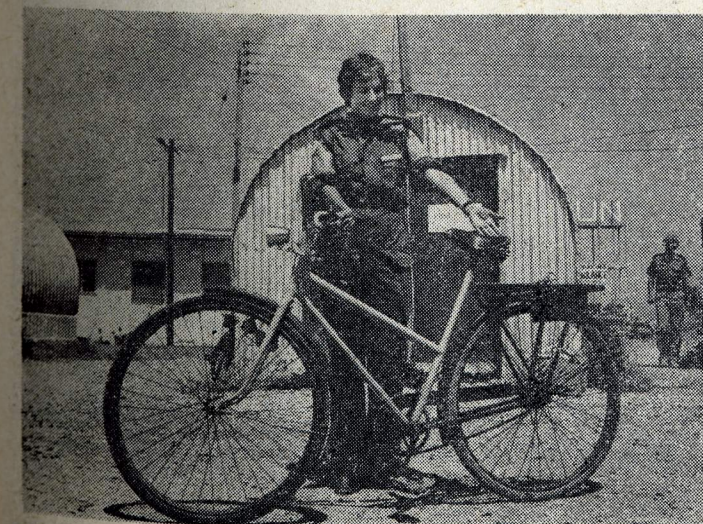

Already the Swedes have christened the lifeboat at SWEDCON's own beach hotel "Louise" and at the Camp a gentleman's bike has been quickly changed to a lady's one.

The Swedish Post Office have been instrumental in the recruiting of these women, but a final decision on the permanent employment of women in these posts with SWEDCON will be made by the Swedish Government in the autumn.

Postal clerk Louise said — "I'm very fond of my job here. In most parts it's the same sort of job that I have in the post office at home. I hope other girls will have the chance to come here".

The post office at Camp Victoria is a popular place nowadays and Postal Clerk Louise has very busy days.
